

Free Community Drive-thru Flu Shots

Saturday, October 17
8 a.m. to 12 p.m.

Presbyterian Medical Group
454 St. Michael's Dr., Santa Fe

To ensure a quick and easy process, please read and follow these guidelines:

- Plan on spending at least 30 minutes or more in your car at the flu shot clinic. Vaccines will be given while you are in your car.
- Only 4 adults per car will be accepted (1 person per window that rolls down). Your car must be standard height (no lift kits) so the nurse can reach the window.
- Masks are required and should cover both your mouth and nose at all times. No valved masks, neck gaiters or bandanas.
- Wear a short-sleeve top for easy access to your arm.
- The vaccine only will be given to adults 18 years old and up (no children).

The 2020 flu vaccine protects against predicted strains of seasonal influenza we are likely to see in North America.

As a reminder, the flu vaccine does not protect you against COVID-19. For COVID-19 resources and information, please visit www.phs.org/COVID-19.
