MyChart today.

Get secure online access to
your health information. Learn
more at phs.org/mychart.

As a Presbyterian Medical Group patient, you have access to your electronic health record (EHR) when you activate your MyChart account.

The EHR enhances communication between your Presbyterian primary, specialty and urgent care teams.

MyChart is a secure patient portal where you can view your information at home or on the go.

Using MyChart, you can:

- Receive test results
- Send messages to your care team
- Request prescription renewals
- View summaries of previous visits
- View immunization records
- Request an appointment

You may also use your MyChart account to request access to the health information of your eligible dependents.

MyChart is just one more way we're transforming healthcare.
